# SHARING/ TRANSFER

## Flick

<https://www.flickr.com>

The screenshot shows a Flickr profile page for a group named "newnew Yorkers at QM". The profile picture is a circular icon with a colorful, abstract design. The main banner image shows a group of people sitting on a lawn in front of a large building, with trees in the background. The profile information includes "0 Followers" and "0 Following". The navigation menu includes "Camera Roll", "Photostream", "Albums", "Favorites", "Groups", "Creations", "Stats", and "More". The "Photostream" tab is selected, showing a grid of photos from March 11, 2016. The photos are arranged in two rows of six. The first row shows people in a classroom setting, with some photos showing a presentation screen. The second row shows people sitting at long tables, possibly in a meeting or workshop. The interface includes a search bar at the top, a "Date taken" filter, and a "Magic View" button.

# Different POINT OF VIEWS

There are three types of projects that can be created: **Personal**, **Collaborative**, and **Shared**.

## Create New Project X

TITLE

DESCRIPTION

PROJECT TYPE *Which one should I choose?*

  
↓  

**Personal**

Only I can view / edit videos in this project.

  
↙ ↓ ↘  

**Collaborative**

Members can create, view, and edit any video from the project. Shared project media is available.

  
↓ ↓ ↓  
  

**Shared**

Members can create their own videos but cannot view/edit other members' videos. Shared project media is available.

**Personal** start and finish a project by themselves. No collaboration.

**Collaborative** for videos that involve multiple creators. Teammates can work on one video and iterate until it is complete, they can create their video with personal media or media they share with each other.

**Shared** Ideal for teams working on multiple videos that share a common topic but will not involve multiple creators per video.

Each group or person should be able to do:

- Access dropbox account and add images.
- Create a new collaborative project.
- Invite people to share. Access the class media folder.
- Create an individual project.
- Add Media from Dropbox to Wevideo.

**NEW YORK PUBLIC LIBRARY DIGITAL COLLECTION**

# Intention

## As a photographer

- Decide on the materials.  
(camera, device, etc)
- Take myself somewhere at a certain time.
- Let see what happens.

# Intention

**Spalding Gray**

Monologues

Improvisation

**John Cage**

*4'33"*

Prepared Piano

**Alfred Hitchcock** Kuleshov Effect

## VISUAL ASSIGNMENT \*

### Intention:

- Go anywhere to photograph in your usual way. Take 15 photos. Everytime you take a photo, turn around and quickly take a second picture of whatever you see that was in back of you.
- Load your photos ( 30 ) in dropbox. Make a folder with your name.
- Make a subfolder inside and called EDIT and add a Selection of 10 photos.

\* This assignment was inspired from the book “Teaching Photography Notes Assembled” by Philip Perkis . CB Press, 2001

## VISUAL ASSIGNMENT

- Film Clips are in dropbox to download or viewing.
- Choose one clip to imitate.
- Imitate the clip as much as you can.
- Pay attention to lighting, composition and the feeling of the scene.
- Don't worry too much about the music. Just the natural sounds in the scene.
- It is always good to have someone to help you out.

First review date is April 9
